RESIDENTS' GOT TALENT

1st Resident Presenter – 10:30-10:35

- Deborah Rogers, DO
Adena Senior EM Resident

Does continuous capnography save lives?

2nd Resident Presenter – 11:40-11:45

– Natalie Elder, MD
The Ohio State University

*Three things geriatricians know
that EM physicians don't*

Dr. Elder is a PGY2 at The Ohio State University Emergency Medicine Residency. As her last name suggests, she has a passion for taking care of older adults, especially in the emergency department.

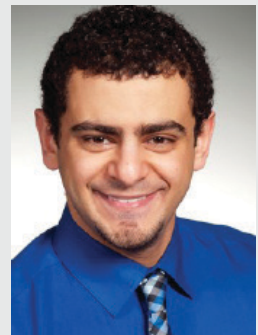

Outside of her clinical responsibilities, Dr. Elder enjoys painting, hiking, and spending time with her geriatric cats, Shoshanna and Marcel (named after characters from the movie Inglorious Bastards).

Follow her on Twitter @dr_neldy

3rd Resident Presenter – 12:50-12:55

– Mark Ramzy, DO, EMT-P,
Drexel University

*Double Defibrillation:
Where's That On The ACLS Algorithm?
Indications, electrophysiology and
complications associated with performing
double defibrillation in cardiac arrest patients
with refractory ventricular fibrillation.*

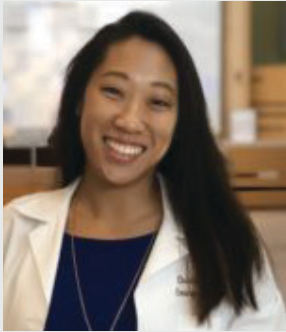

Mark Ramzy has been involved in EMS for over 15 years and currently serves as the EMRA Critical Care Committee Chair. Mark also serves as the Multimedia and Communications Editor for ALiEM's Faculty Incubator. Formerly a resident at Drexel University and Hahnemann Hospital in Philadelphia, PA, he is now a third year resident at Maimonides in Brooklyn, NY. Mark continues to be a regular contributor to the #FOAMed community as an author for REBEL EM and is pursuing a critical care fellowship next year.

RESIDENTS' GOT TALENT

4th Resident Presenter – 1:35-1:40

– Christine Ju, MD
St. Joseph's University Medical Center

*All about anaphylaxis.
What is it, why does it happen,
what causes it, how do we treat it?*

Ju is a current fourth year and chief resident at St. Joseph's University Medical Center in Paterson, NJ. She was born and raised in Northern California and spent the majority of her early life in the food service industry helping to run a family restaurant. She attended the University of California, Davis for her undergraduate education before moving to the wonderful island of Grenada in the Caribbean to attend St. George's University for medical school. With a family owned restaurant and a chef for a father, she loves everything about food, especially eating it. Ju enjoys traveling, cooking, music, hiking, scuba diving, and any nature documentary narrated by David Attenborough.

Follow her on Twitter at @christinemju

5th Resident Presenter – 1:55-2:00

– Laura Roper, MD
Crozer-Chester Medical Center

*The Poor Man's Methadone:
A case study with a tragic outcome*

Dr. Roper is a third-year emergency medicine resident physician at Crozer-Chester Medical Center in Upland, PA. She is a graduate of Drexel University College of Medicine. She currently serves as chief resident at her residency program and Chair of the EMRA Toxicology Committee. She is passionate about toxicology, teaching, and academic medicine. Her goal after graduation is to complete a fellowship in medical toxicology.

He has practiced medicine nationally and internationally including volunteer work in Papua New Guinea, Nepal, and the West Indies.

Research interests include ED evaluation and management of chest pain, patient safety, and EM medical education.

Michael Weinstock, MD

A multiple award winning educator and lecturer, Dr. Orman is the host of Essentials of Emergency Medicine and the ERCast podcast where he distills complex ideas into useable nuggets.

His goal with ERCast is to demystify aspects of medicine that make us anxious, normalize the seeming insanity of the job, and dissect the practices and thought processes of masters in the field.

Rob is a community emergency physician living in Bend, Oregon.

Rob Orman, MD

Dr. Pallaci is a 1998 graduate of the NY College of Osteopathic Medicine and is an Adjunct Clinical Professor of Emergency Medicine at OUHCOM. He completed his EM Residency at Palmetto Richland Memorial Hospital in Columbia, SC, where he serves on the Board of Directors for the Residency's Alumni Association.

He began his career with Mid-Ohio Emergency Services in Columbus, where he served as the EM Ultrasound Director while covering the EDs at Grant Medical Center and Riverside Methodist Hospital. In 2010 he took the EM Residency Director position at Grandview Medical Center in Dayton, OH, and has been the PD at Adena since 2016.

He has taught numerous courses and conferences, including The Emergency Ultrasound Course, ATLS, the Ohio ACEP/MCEP Winter Symposium, the ACOEP Scientific Assembly, the Ohio Osteopathic Symposium, and OUHCOM's Residency Director Fellowship Program. He is a chapter author for the Bouncebacks! book series, and has appeared on the EM:RAP and UC:RAP podcasts. His professional interests include emergency ultrasound, emergency management of hypertension, curriculum development, resident remediation and adult learning.

He and his wife Denise live in Westerville, OH, with their three beautiful, bright and ridiculously active children, with whom they happily spend whatever free time they can find.

Michael Pallaci, DO

Drew Kalnow, DO

Drew Kalnow, DO is the Director of Simulation and faculty for the Emergency Medicine residency program at Doctors Hospital in Columbus, OH.

He is a co-host of EM Over Easy, an emergency medicine podcast focused on “More than Medicine”.

He received his medical degree from the West Virginia School of Osteopathic Medicine and completed his Emergency Medicine residency training at Doctors Hospital-OhioHealth.

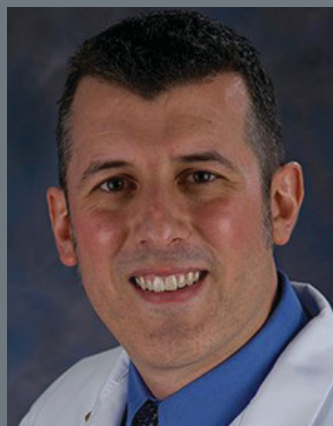

In addition to simulation and resident education, Drew is passionate about the FOEMed movement, promoting the emergency medicine community and spreading the gospel of video laryngoscopy.

Andy Little, DO

Andy Little, DO is a 2012 graduate of Ohio University Heritage College of Osteopathic Medicine and from the Doctors Hospital Emergency Medicine Residency in 2016.

He currently serves as a Core Faculty member and the Research Director at Doctors Hospital Emergency Medicine Residency. Outside of his roles in education, he serves as a Co-founder and Host for the EM Over Easy Podcast.
